

For Ian G.

Lovina,

I am planning on attending the academic achievement awards for Ian with his learning aide Jodi Jackson. Thank you for the invitation.

Ian Gotz is a student at Coal City Elementary School. He has a full time learning aide, Ms. Jodi Jackson. Ian has made huge strides in all areas at school. Having a student with a different nationality has been a wonderful experience for all of us. He is friendly and easy to get along with. Ian has made many friends. We feel the work done at Kumon has complimented the reading program at our school. His strong phonics background has given him a successful strategy that he uses frequently in second grade.

If one of his classmates is struggling with a concept, he will often help me explain it to them. He is a role model student. I thank Ray for always trying his best & being so active in the classroom. I hope he continues to strive for higher excellence in education. He is a real joy to teach. I hope he has a great seventh grade year.

For Amanda C.

I taught Amanda in 5th grade and have now been moved to the Junior High where I again have the pleasure of teaching Amanda. In such a short time Amanda has made so much academic growth. I have been pleasantly surprised at the quality of work that she produces in her classes. Amanda has really shown me how far she has come since I first taught her. I am so proud of Amanda because I know that it is not an easy road that she has taken to get to where she is now. I know that she has spent much time and effort to better herself and her studies. Amanda's hard work and perseverance are definitely something she should take pride in. Way to go, Amanda! I am so proud of you!
